Disc
Plows

Now is the time to prepare your land for another crop, and to make your preparation thorough you should have a Chattanooga Reversible Disc Plow.

Plows "A Cumin' and a Goin' "

It is the only successful Reversible Disc Plow built, it is simple in design, few in parts and easy to operate on the hillsides or level land, in short, to be good any where at any time when plowing can be done.

We have just received a car load of these plows and a full list of repairs and we will make prices right.

Heath-Bruce-Morrow Co.

Leaders in Low Prices.

We will accept Clearing House certificate on Columbia banks in payment of accounts or for goods bought of us same as cash.

Bigger Cotton Yields Per Acre

The value of commercial fertilizers has been demonstrated over and over again by both government and private comparative tests. We stand ready to demonstrate to you at any time that the surest way to "increase your yields per acre" is to use

Virginia-Carolina Fertilizers

Hon. R. J. Redding, former Director of the Georgia Exp. Station, is authority for the statement that experiments made at this station show that well balanced commercial fertilizer applied to one acre of land, and well cultivated, may be reasonably expected to produce an increase of yield of seed cotton. At the present price of cotton this would mean a large extra profit (for both lint and seed), after deducting the price for fertilizer."

You'll find reports of many other comparative tests, together with much valuable information concerning land culture in the new Virginia-Carolina Year Book or Almanac. Ask your local fertilizer dealer for a copy—or we'll send you one free, if you write our nearest sales office.
